## PROCESSING

---

thetan. There are many processes and these are aligned with the levels taught to students and with grades as applied to preclears, all of which lead the student or the preclear gradually to higher understanding and awareness. Any single process is run only so long as it produces change and no longer. (*Scn AD*)

**PROCESS BITING**, *Slang*. If the TA is moving, the process is biting and if it is not moving the process is not biting. No motion on the tone arm dial=no action in the bank. (SH Spec 1, 6105C07)

**PROCESS BY TONE ARM**, theoretically when I say process by the tone arm I mean keeping the needle somewhere in the vicinity of set and that gives you your tone arm motion. (SH Spec 3, 6105C19)

**PROCESS COMPLETION**, defined as the end phenomena of the process. (HCOB 26 May 71)

**PROCESS CYCLE**, selecting a process to be run on the preclear, running the tone arm action into it (if necessary) and running the tone arm action out of it. (HCOB 7 Apr 64)

**PROCESSED**, drilled in Scn with Scn exercises. (PAB 82)

**PROCESSES OF SCIENTOLOGY**, methods of "unhypnotizing" men to their own freer choice and better life. (*COHA*, p. 251)

**PROCESS FLAT**, see FLAT PROCESS.

**PROCESSING**, 1. called "auditing" by which the auditor (practitioner) "listens and commands." The auditor and the preclear (patient) are together out of doors or in a quiet place where they will not be disturbed or where they are not being subjected to interrupting influences. The purpose of the auditor is to give the preclear certain and exact commands which the preclear can follow and perform. The purpose of the auditor is to increase the ability of the preclear. The *Auditor's Code* is the governing set of rules for the general activity of auditing. -(PAB 87) 2. the principle of making an individual look at his own existence, and improve his ability to confront what he is and where he is. (*Aud 23 UK*) 3. a series of methods arranged on an increasingly deep scale of bringing the preclear to confront the no-confront sources

## PROCESSING CHECKS

---

of his aberrations and leading them to a simple, powerful, effective being! (HCO PL 18 Sept 67) 4. the verbal exercising of a patient (preclear) in exact Scn processes. (PAB 87) 5. processing is not getting data out of the preclear; it is not assembling his life for him as a complete, consecutive play—it is increasing his self-determinism and his right to reason. (DAB, Vol. II, p. 70 1951-52) 6. a procedure by which an individual recovers his self-determinism. No procedure which does not bring about increased self-determinism is processing. (Abil 114A)

**PROCESSING CHECKS**, you will see processing checks in literature going out, so don't let it throw you. I'm talking about security checks. (SH Spec 91, 6112C12)

**PROCESS LAG**, 1. the length of time it takes the whole circuit to clean or clear or get free and of course that length of time is how long it takes you to run out that question and we call that a process lag. If you are running Opening Procedure 8-C and you have to run it on a preclear fourteen hours before he seems to be in good shape on the thing, you have done then a process lag and you've cleaned up a process lag. How long did it take for this process to be effective on the preclear, fourteen hours. (5411CM05) 2. this is the length of time it requires for the preclear to obtain a result from a process. (PAB 43) 3. the length of time it takes to reduce all communication lag from a type of question or action in auditing. (PAB 43) 4. another kind of communication lag is simply a processing lag. It's the length of time that it takes the process to be effective on the preclear. (5410CM06)

**PRODUCTION**, an org must produce to survive. By production is meant training auditors who can audit, auditing pcs to a good result and making money, or in a total socialism obtaining adequate support in ratio to production. (HCOB 21 Nov 71 I)

**PRODUCT PROGRAM**, is an experimental program. It remains experimental and has not been released. (BTB 1 Nov 72)

**PROFESSIONAL AUDITING**, sessions given by a trained auditor who is governed by ethical codes and technical skill, who directs the pc's attention to areas which when examined by the preclear
